

Образец письменной конкурсной работы по английскому языку для абитуриентов, поступающих в 9 класс естественнонаучной специализации.

При поступлении на данный профиль вступительные испытания проводятся в форме **ПИСЬМЕННОГО ТЕСТА-ЗАЧЕТА. УСТНАЯ ЧАСТЬ НЕ ПРОВОДИТСЯ.**

Письменный тест длится 60 минут и состоит из 3х частей:

- 1) аудирования (**типы заданий:** задание на соотнесение говорящего с темой высказывания, множественный выбор, верно/неверно);
- 2) чтения (**типы заданий:** соотнесение заголовка с абзацами, множественный выбор, верно/неверно/не сказано);
- 3) проверки лексико-грамматических умений и навыков (**типы заданий:** лексико-грамматическая трансформация, грамматическая трансформация).

Каждый раздел включает 2 задания. *Формат заданий в каждом разделе может варьироваться.*

После выполнения теста ответы переносятся в **БЛАНК ОТВЕТА**. Тексты заданий можно использовать в качестве черновика. Однако **ПРОВЕРКЕ ПОДЛЕЖАТ ТОЛЬКО ОТВЕТЫ, ПЕРЕНЕСЕННЫЕ В БЛАНК ОТВЕТОВ**. Сами тексты заданий сдаются вместе с листами ответов после окончания выполнения задания, но не проверяются.

Запрещается выносить тексты заданий и любые записи из аудитории. Во время теста запрещено пользоваться средствами мобильной связи и другими электронными устройствами, словарями и другой справочной литературой.

За выполнение заданий абитуриент получает максимально **40 БАЛЛОВ**: 10 баллов за задания по аудированию, 10 баллов за задания по чтению и 20 баллов за лексико-грамматический тест.

При успешном выполнении 50% работы (20 баллов) работа считается засчитанной и абитуриенту выставляется ЗАЧЕТ. Баллы, полученные сверх 20 баллов, делятся пополам, и полученное число составляет количество **БОНУСНЫХ БАЛЛОВ**, прибавляемых к общей сумме баллов за все испытания.

Внимание! Приведенные ниже задания не являются окончательным вариантом вступительного теста.

| 1 CRUEL BUSINESS | 4 DEAD OR ENDANGERED |
| 2 DON'T LEAVE RUBBISH BEHIND! | 5 A GREEN SOCIETY |
| 3 CHOOSE: WHAT GOES WHERE? | 6 WHY WORRY ABOUT TREES? |

A) Before people started destroying the rainforests, they covered 15% of the Earth's land area. Today, they cover only 6%. In just the last 50 years, one third of the tropical rainforests have been destroyed. If people don't stop, global warming will become more severe, rare ecosystems will be destroyed, we'll breathe polluted air and the climate will be changed forever.

B) In the first years of the 21st century there were lots of discoveries in the animal world. But in the past 10 years some animals have completely disappeared from earth. You can no longer see a golden toad, a baiji dolphin or a black rhino. It is frightening that today the process is going faster and faster. These days about 5000 animals could disappear at any time.

C) More than 100 million animals every year suffer and die from inhuman drug, food or cosmetic tests, biology lessons, medical training exercises and other experiments. It seems that we have no pity for them. Have you ever thought that we hurt them? If there isn't testing on people there shouldn't be testing on animals either.

D) 'Please, keep this place clean'. This is often written on picnic sites and camping areas in forests. Do we follow the recommendation? We have fun and enjoy the views and then throw away unwanted food, glass, plastic bottles, cans, wrappers and paper. Is that your 'thanks' to nature? Make your site or travel route look like nobody was there. Leave no sign of human influence.

E) How many rubbish bins do you have where you live? In our area there are about 6 of them, each bin for a different kind of rubbish. There are separate containers for glass, cans, paper, textiles, plastic bottles and food products. I'm sure it's really good because lots of things which we throw away can easily be recycled. It's time to start caring for our environment.

Задание 2	Прочитайте текст и определите, какие из приведённых утверждений соответствуют содержанию текста True (T) , какие не соответствуют False (F) и о чём в тексте не сказано, то есть на основании текста нельзя дать ни положительного, ни отрицательного ответа Not Stated (NS) . OVERCOMING DIFFICULTIES

Sometimes life makes us sad and even depressed. When it comes to this, you may remember the example of Helen Keller, born in a small American town in 1880. The illness struck Helen Keller when she was a baby and left her deaf and blind before she learned to speak. In spite of Helen’s illness her parents decided that she should have some education and started looking for a teacher.

Helen Keller’s new life began on a March day in 1887 when she was seven years old. On that day Anne Mansfield Sullivan, a 20-year-old graduate of the Perkins School, came to the town to be her teacher. From that day, the two of them – teacher and pupil – were inseparable.

Helen Keller was a talented pupil and quickly learnt how to read and write. She enjoyed reading books written for blind children. In 1890, when she was just 10, she decided to learn to speak. At first Helen had difficulty with speaking, but with the time and help from Anne she developed a clear voice. Later, she was able to speak in public for large crowds that came to her whenever she gave her lectures. There was usually a storm of applause after her every lecture.

After school Helen went to college and graduated it with honours. She got a Bachelor of Arts degree. Throughout those years and until her own death in 1936, Anne Sullivan was always by Helen’s side. Helen did everything possible to help and encourage those who were blind. For the rest of her life, Helen Keller worked for improving education for the blind and deaf.

Helen Keller lived in many different places – Alabama; Cambridge and Wrentham, Massachusetts; Forest Hills, New York, but perhaps her favorite residence was the house in Easton, which she called ‘Arcan Ridge.’ She moved to that white house in 1936, after her beloved teacher’s death. And it was ‘Arcan Ridge’ she called home for the rest of her life. She died in 1968.

1. Helen’s parents found a young teacher for their daughter.
2. Helen’s favourite books were about animals and nature.
3. Helen’s lectures were popular.
4. Helen Keller finished college successfully.
5. Helen never left her hometown.
